AN ACT to incorporate the Madison county Ferry Company.

In force,
Feb. 3, 1840.

WHEREAS Thomas G. Lofton, William Gillham, Moses Seeds, Preamble

William Snyder, and John Wood, residents of Madison county, in this State, have represented to the General Assembly that they have, in good faith, contracted with Abel Rathburn Corbin, and Elizabeth Corbin, his wife, of the city of St. Louis, in the State of Missouri, for the ferry across the Mississippi river, between North St. Louis and a point in Illinois five rods north of the line between township two and three north, and also for the steam ferry boat Brooklyn, and can have a title therefor; and whereas it has been represented, that although the profits of said ferry have hitherto proved insufficient to induce any individuals to keep the same in operation for any considerable time, yet a company may be formed, under an act of incorporation, who will be able to maintain said ferry in such a manner as greatly to promote the public convenience: Therefore,

SEC. 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly,* That Thomas G. Lofton, William Gillham, William Snyder, Moses Seeds and John Wood, and such others as may associate themselves with them, their successors and assigns, are hereby constituted a body corporate by the name of the "Madison County Ferry Company," for the purpose of conveying, in steam or other boats, persons and property from this State, at a point five rods north of the place where the line between townships two and three north strikes the bank of the Mississippi river to the opposite shore, at a place called North St. Louis; said company shall have succession for ten years, may sue and be sued, contract and be contracted with, may have a common seal and change the same at their pleasure during their corporate existence.

SEC. 2. The business of said company shall be under the entire control and management of five directors, to be chosen as hereinafter provided, which directors shall choose one of their number to preside over their deliberations. Said directors shall continue in office one year, and until their successors shall be elected and qualified.

SEC. 3. The capital stock of said company shall be twenty-five thousand dollars, to be divided into shares of one hundred dollars each; fifteen per cent. on each share to be paid at the time of subscribing, and ten per cent. to be paid every four months thereafter, if required by the directors.

SEC. 4. If any stockholder shall refuse or neglect to pay the balance of his stock for ten days after the same shall have become due and after the same shall have been required by the directors, the president and directors may declare his stock forfeited for the benefit of the company.

SEC. 5. It shall be the duty of the president and directors to give notice by setting up at five of the most public places in this State, within six miles of said ferry, written or printed advertisements, at least ten days previous to the time when payments are required to be made; said advertisements to state what per centum on the stock is required to be paid, and the place where and the person to whom the same must be paid.

SEC. 6. Samuel Squire, Moses Seeds, Thomas Gillham, John Ives and Calvin Kinder, are hereby appointed commissioners, whose duty it shall be to open books for the subscription of stock of said company, at such time and place as they may think proper, by setting up written or printed notices in five of the most public places in six mile township, at least ten days previous to the opening of the books for subscription of stock; said books to remain open until all the stock is subscribed, or until otherwise directed by said commissioners.

SEC. 7. As soon as one half of the capital stock of said company shall be subscribed according to the third section of this act, the aforesaid commissioners shall give notice to the stockholders in the manner prescribed in the sixth section of this act, that an election will be held for the purpose of choosing five directors of said company, and such election shall be held at the time and place previously appointed and advertised. Each stockholder present shall be entitled to give one vote for every share of stock owned by him. The commissioners aforesaid, or such of them as may be present, shall be judges of the first election of directors, and shall certify under their hands the names of the persons duly elected to the office of directors; and the commissioners shall deliver to said directors the subscription books together with all monies paid to them on stock.

SEC. 8. Elections of directors, subsequent to the election provided for in the preceding section, shall be held at some place in this State within five miles of said ferry landing, at such place and at such time in the month of January in each year, as the directors may think proper. For this purpose the directors are required to give ten days previous notice in the manner prescribed in the seventh section of this act, and to conduct the election in the same manner as the com-

missioners are required to conduct the election provided for in the said seventh section. If from any cause an election shall not be made at the time appointed, such omission shall not affect the existence of the company, but the president shall in such case appoint another day, as soon thereafter as may be for the holding of such election.

SEC. 9. The president and directors shall have power to make all by-laws and regulations that may be necessary for the transaction of business and the good government of the company, and to alter or amend the same as often as may be necessary: *Provided*, That such by-laws and regulations shall not be in contravention of this act, or of the constitution or laws of the United States or of this State.

SEC. 10. The rates of toll and license of said ferry shall be under the control of the county commissioners' court in the manner now provided, or hereafter to be provided, by the laws of this State regulating ferries.

SEC. 11. No other ferry shall be established within one mile of the ferry authorized by this act, during the existence of the said company: *Provided*, That the General Assembly may repeal this section whenever, in their opinion, the public interest shall require it.

SEC. 12. The stock of said company shall be transferable only on the books of the company.

SEC. 13. The said company shall have power to hold real estate not exceeding six hundred and forty acres; to build ferry houses, and build or purchase ferry boats of any kind; to improve roads and bridges; to borrow money not exceeding the amount of their capital stock: to employ engineers and ferrymen, and generally to do such other things as shall be necessary to keep said ferry in operation.

SEC. 14. Said company may land its boat, or boats, at any point within one mile of its established place of landing whenever it may be necessary or convenient to do so, without being required to pay for any additional license, and for that purpose may use any public road or street, without let, hindrance or charges from any persons whomsoever.

SEC. 15. The company hereby incorporated may continue in existence during the term of ten years from the passage of this act.

The Revenue law requires the clerks to report to the Auditor the aggregate amount of State tax assessed in their respective counties; and, I have, therefore, no means of showing the separate valuation on Real and personal property in the State. It will be perceived from the above statement, that a number of counties have failed to comply with the provisions of the law. A list of those counties, from which no returns have been received, at this office, is herewith submitted, marked, A. I have been advised, that in many counties, owing to a misapprehension of the provisions of the 1st section of the law, a tax was assessed only on such property as is enumerated in said section. If the law, therefore, had been carried into general and perfect operation throughout the State, the amount of Revenue could not have been less than \$120,000.

Although there was considerable hostility felt against this law for some time immediately after its passage, yet, now, since its provisions have been understood, and the necessity which existed for its passage, clearly demonstrated, it meets with the general approbation of the people; and, it is believed, that hereafter it will meet with no further opposition, even in those counties which have been most decidedly against it.

The following is a statement of the present condition of the State Treasury, in regard to her ordinary resources and expenditures:

Amount due the Bank on the 1st day of December, 1839, - - - -	\$142,550 61
Amount of outstanding warrants on the 1st day of December, 1839, - - -	83,109 11
	<u>\$225,659 72</u>

To meet this sum, the State has the following resources, viz:

Amount of revenue, derived from taxation, for 1839, - - - - -	\$110,942,28	
Amount due from Shawneetown Bank, -	6,981 01	
" due from citizens of Springfield, -	16,666,66	
" due from Revenue collectors under the old Revenue system, - - - -	11,833 74	
		<u>146,423 69</u>
Deficit on 1st December, 1839, - - -		<u>\$79,236 03</u>

Of the above amount of outstanding warrants, the sum of \$80,097 00 was issued on account of the State House appropriation, excluding which, the balance against the Treasury, at this time, would amount to the sum of only \$3,012 11. In my last report to your Honorable body, I estimated the ordinary expenditures of the State, for the year 1840, at \$91,170 00. Since which time, by the leasing of the Penitentiary, the State has been relieved of an expense, estimated at \$2,400 00. The interest accruing upon the school fund, on the 1st day of January next, will be less than the amount estimated by about \$700. To counterbalance this reduction in the estimated expenditures of 1840, there will, however, be about an equal

amount of interest accruing upon the State House Stock, which will leave the expenditures of 1840 at about the sum estimated; to which is to be added the following expenses (not then anticipated) viz: Expenses of the present session of the General Assembly, including printing paper for laws, &c. say \$50,000 00; interest on warrants, say \$5,000 00, and balance of State House appropriations, not yet drawn, \$31,718 00; making the total expenditures for 1840, amount to \$177,888 00.

The following statement exhibits, it is believed, what will be the condition of the Treasury on the 1st day of December, 1840:

Amount to be derived from taxation, for the year 1840, under the present revenue law, say, - - - - -	\$140,000 00
Amount from Bank of Illinois and State Bank say, - - - - -	22,000 00
Amount from State House loan, - - -	128,000 00
	<hr/>
Balance against the Treasury on the 1st December, 1839, - - - - -	\$290,000 00
Expenditures of 1840, as above stated, - -	\$79,236 03
	177,888 00
	<hr/>
	257,124 03
	<hr/>
Leaving a balance in favor of the Treasury on the 1st December, 1840, of - - -	<u>\$32,875 97</u>

The first instalment of the State House loan became due on the 1st of November last, the draft for which, amounting to the sum of \$16,000, less \$200 expenses, has been returned protested. In the above estimates, however, I have assumed that this loan will be paid, which assumption is founded upon the fact, that the contract for the loan, is guaranteed by individuals in the city of New York, of respectable standing, a copy of which contract, marked B, is herewith submitted. Should this loan be realized, I think there cannot exist a doubt, that our present Revenue law will amply fulfil all the purposes for which it was framed; and that by the year 1841, it will have furnished a revenue sufficient to defray the balance which now exists against the Treasury, together with the expenditures of the ensuing year, including the interest on the State House stock and the School fund, and leave a balance in favor of the Treasury. It is confidently believed that the expenditures of 1840, will not exceed the amount above estimated; and, it is as confidently believed, that the revenue may safely be assumed to amount to the sum I have stated, as the law will doubtless be generally and more perfectly executed, and as there will be a considerable increase in the taxable property of the State. In the years 1841 and '42, there will be a vast accession to the taxable lands in the State, and the revenue from that source will be greatly augmented. It may safely be assumed, that the revenue under the existing law, will annually increase in a greater proportion than the expenditures; and, that, should there be no demand upon the revenue from our Internal Improvement system, the state of the Treasury, in a few years, will justify a reduction in the rate of taxation.

I would respectfully suggest that a law be passed, authorizing and requiring the assessors who may be appointed the ensuing year, in those counties which have failed to comply with the law, to assess tax for the present year; also, that the present law be amended, so as to specify more distinctly, the fees which certain officers are to receive for their services, especially the fees of the sheriff and clerks for entering judgment and selling delinquent lands. From the short experience which I have had, in acting under the law, I am not at present aware that any further amendments are necessary, except in the 1st section, a misapprehension in regard to which I have before alluded to.

I herewith submit copies of the Reports which have been made to this office by the Fund Commissioners, since the last session of the General Assembly, together with copies of the contracts made by them for the sale of Internal Improvement bonds. No report has yet been made to this office relative to the sales made of Internal Improvement bonds in Europe by the Fund Commissioners.

The following statement exhibits the indebtedness of the State, on account of stocks sold, viz:

Amount of Illinois and Michigan canal stock sold, -	\$2,400,000 00
" of Bank and Internal Improvement stock sold, -	2,665,000 00
" of Internal Improvement stock sold, including \$1,500,000 said to be sold in Europe, but not yet officially reported to this office, - - -	4,687,000 00
Amount of State House stock sold, - - -	128,000 00
	<hr/>
Total amount of stocks sold,	<u>\$9,880,000 00</u>
Amount of interest accruing annually on the above stock, - - - - -	\$592,800 00
From this sum deduct amount of dividends on Bank and Internal Improvement stock, say, - - - - -	\$240,000 00
Amount of revenue to meet interest on State House stock, - - - - -	7,680 00
	<hr/>
	247,680 00
	<hr/>
Leaving amount of interest to be paid out of Canal and Internal Improvement funds, -	<u>\$345,120 00</u>

Of the above amount of \$345,120 00, the sum of \$144 00 is to be paid out of the Canal fund, and the sum of \$201,120 00 out of the Internal Improvement fund. How far those funds are available, to pay this interest, I have no means of knowing.
